

# The first EHR-embedded comprehensive OCM solution

All measures > OCM-10

## OCM-10 Performance

Trastuzumab administered to patients with AJCC stage I (T1c) - III and human epidermal growth factor receptor 2 (HER2) positive breast cancer  
Percentage of adult patients (aged 18 or over) with invasive breast cancer that is HER2/neu positive who are administered trastuzumab

Show data by physician: All physicians | Time Period: 10/1/16 — 12/31/16

Physician	Score	# of Passes
Abbott, Nona	33%	1 / 3 patients 4 patients with unknown status
Bahringer, Effie	50%	1 / 2 patients 2 patients with unknown status
Barrows, Aurelia	25%	1 / 4 patients 5 patients with unknown status
Bartell, Stephany	57%	4 / 7 patients 3 patients with unknown status
Dibbert, Lucy	0%	0 / 1 patients 4 patients with unknown status

OCM QUALITY MEASURE DASHBOARD

Oncology care delivery is changing rapidly with value-based reimbursement programs like the OCM, one of the first CMS specialty models aimed at improving quality and reducing the cost of care. While the expected patient and provider benefits are exciting, these new initiatives come with a daunting amount of practice transformation and reporting requirements.

Powered by the OncoCloud™ platform and leveraging Flatiron's deep engineering and oncology expertise, this clinically-integrated solution is proven to save practices time and reduce administrative burden.

### The Flatiron OCM Network:

- 30%** of all ocm-participating practices
- 100%** registry submission success rate
- 40,000+** patients actively in episode

“Flatiron’s OCM solution makes all the complex reporting requirements so much easier. I can download my measures reports, log into CMS’s registry and input or upload my data in minutes.”

Rachel Parker  
OCM COORDINATOR,  
HIGHLANDS ONCOLOGY GROUP

AUTOMATED OCM PATIENT ID

OCM PATIENT SCREENING TOOL

“We depend on the OCM patient reports to accurately track and bill for every episode. They are extremely helpful and have taken a lot of burden off my staff. Kudos to your team!”

Chris Barnes  
EXECUTIVE DIRECTOR,  
ALABAMA ONCOLOGY

## The Flatiron Health OCM solution, delivered through the OncoCloud™ platform, supports the entire spectrum of OCM requirements:

### Designated support & user group

Work with our value-based care specialists to navigate and succeed in the OCM, and access Flatiron’s OCM User Group to share best practices and learnings

### OCM quality measure reporting and tracking

Monitor OCM quality measure performance in near real time, and download registry-ready reports

### Automatic OCM patient identification, tracking, and MEOS billing

Identify eligible patients through patient identification directly within OncoEMR to ensure appropriate onboarding, care coordination and MEOS billing

### OCM-compliant care plan

Create a care plan in minutes that contains the 13 components of the IOM Care Management Plan, with information automatically pulled from existing OncoEMR workflows

### Evidence-based clinical content

Utilize centrally managed and maintained NCCN Chemotherapy Order Templates (NCCN Templates®)
